

## EQUINE VETERINARY INTERSHIP 12 MONTH PROGRAM

### About Us

Endell Equine Hospital is a well-established, RCVS Tier 3 accredited equine hospital located in Salisbury. We are proud to offer a full range of advanced services, from routine care to specialised surgical treatment.

Our purpose-built facility includes state-of-the-art diagnostic imaging, surgical capabilities, and 24-hour inpatient care, complemented by a comprehensive ambulatory service covering Wiltshire, Hampshire, Dorset, and the New Forest.

Our team of highly skilled veterinarians, including an RCVS and American Specialist in Equine Surgery as well as numerous certificate holders, provides the highest standard of care while fostering an environment of learning and professional development.

### Candidate Requirements

- MRCVS is essential
- Unfortunately we are no longer able to take candidates who require visas to work in the UK
- Strong interpersonal and communication skills
- A commitment to high standards of clinical care and teamwork

"This internship program is very well designed, our mentor is dedicated and all the vets are very supportive. After a year spent at Endell I managed to build confidence as a vet, which I didn't have before. Now I feel ready to start working independently."

-Previous Endell Intern

## Position Overview

We are seeking enthusiastic and dedicated new/recent veterinary graduates for our 12-month Equine Veterinary Internship. This comprehensive program is designed to enhance clinical skills and provide valuable experience in a variety of areas, including:

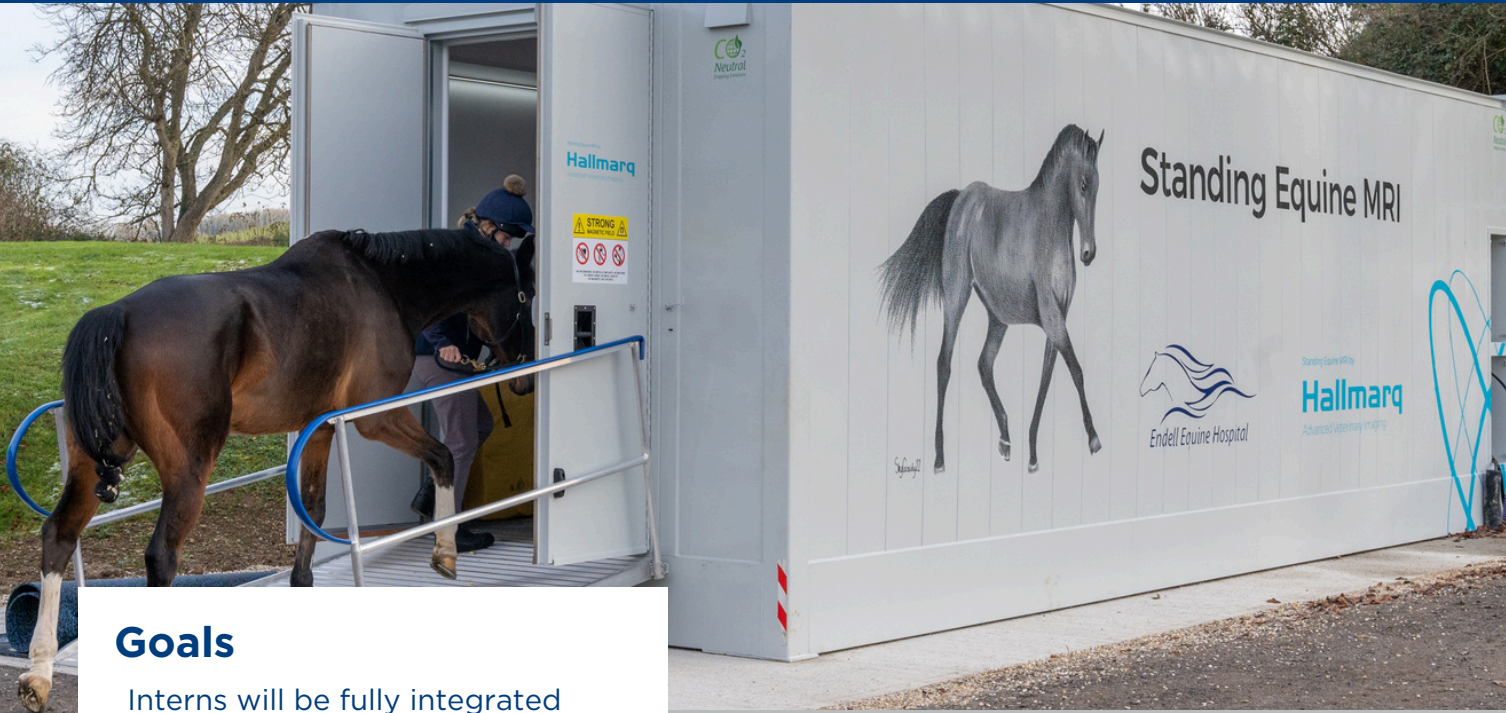

- Diagnostic imaging: develop skills using imaging modalities including radiography, ultrasonography, endoscopy, nuclear scintigraphy and MRI
- Anaesthesia: a core aspect to the internship is gaining experience and a comfort level in administering standing sedation and general anaesthesia. Specialist training is provided a number of times throughout the year.
- Surgery: a wide range of standing and recumbent surgical procedures are performed
- Sports medicine: there is a high lameness caseload, with a combination of first opinion and referral cases
- Intensive care: we receive all kinds of emergency medical and surgical cases that require hospitalisation
- Lab: we have great internal lab capabilities, including cytology and culture, on top of the normal lab machines
- Reproduction: during the stud season mares come into the hospital for AI, which need scanning and ovulation checks

Interns will work under the direct supervision of our senior clinicians and specialists. Regular case rounds/discussions, structured feedback, and VetGDP mentorship ensure a supportive and enriching environment for professional growth.

Endell Equine Hospital  
Salisbury

## Goals

Interns will be fully integrated into the clinical team, assisting with case management and client communication. Additional learning opportunities include participation in clinical rounds, journal clubs, and case presentations. There are opportunities to contribute to clinical research and case reports for publication. Other visiting specialists come to the hospital, including surgeons, medicine specialists, ophthalmologists and dental specialists.

One of our main goals of the internship is to provide interns with the experience and clinical skills to be able to approach and triage any case.

## Job Specifics

- 12-month position starting in autumn 2025
- Option to stay on for an additional 6-month ambulatory position (for the right candidate)
- 1 in 2 rota
- 25 days of holiday (including bank holidays)
- Interns are enrolled in a new graduate program that ensures various CPD opportunities are completed during the year
- VDS membership and RCVS fees paid for
- Net salary £25,559
- On-site accommodation provided

## Application Process

For further information about the internship program, please contact Andrew Jones, the Surgeon and Clinical Director, at [andrew.jones@cvs vets.com](mailto:andrew.jones@cvs vets.com).

Interns will be required to submit:

- Current curriculum vitae (CV)
- Letter of intent
- Two references

Shortlisting occurs early 2025, followed by interviews.
